ANALYSIS: (Attach a separate page if necessary)

The storage tank financial assistance program was established by the legislature to provide technical and financial assistance to underground tank owners and operators in an effort to prevent new spills and cleanup old spills from underground storage tanks (UST). The Storage Tank Assistance Fund began in 1990 as a grant program to assist UST owners with the cost of tank tightness testing, site assessment, clean up of contamination caused by leaking USTs, and removal, upgrade, or replacement of UST systems. The Board of Storage Tank Assistance was established to rank requests for grants and loans, and determine which costs were eligible under the financial assistance program. In 2002, SB 153 renamed the fund the Underground Storage Tank Revolving Loan Fund (USTRLF), and mandated that DEC could not pay money for grants after June 30, 2004. The grant program was successfully closed by the required date, and no loan requests have been received. Since no more grants can be issued, and no loan requests have been or are expected to be received, repealing the Board and the Fund should not have an impact. UST permit fees, which are directed to the USTRLF and amount to approximately \$35,000 per year will be deposited in the General Fund.
